**EXCLUSIVE HIGH QUALITY
SPARE PARTS AND ACCESSORIES**

JP GROUP COMPANY

For about 50 years JP Group a/s and our manufacturing company Johs. Pedersen a/s have been recognised worldwide by enthusiasts with the high quality brands:

within spare parts for VW, Porsche and Mercedes aftermarket.

Furthermore, during 2020 we made a strategic distribution alliance with  regarding European master distribution of the famous EMPI range of accessories and performance parts. This now also includes the entire  carburetor range. Our consolidated range thereby consists of more than 11.000 part numbers for above mentioned classic cars and is constantly expanding.

A STRONG FAMILY AND AN EXTENSIVE PRODUCT RANGE

With our extensive in-house production, we are also proud of being OE manufacturer, and our product range covers high quality components for a very wide spectrum of product groups. Main focus in our production is OE quality metal stamping parts such as exhaust, heat exchangers, body parts, fuel and oil tanks and a wide range of technical CNC machined classic spare parts.

In our factory situated in Viborg in the very centre of Jutland, Denmark, we focus on importing a range of product groups from worldwide classic parts production partners, whom we have granted approval of manufacturing our parts. Many are existing or former OE industries, who provide us with parts for various product groups like engines, brakes, interior and exterior parts, steering and suspension as well as an electrical parts range.

CONSTANT NEW DEVELOPMENTS

Our R&D (Research & Development) work closely together with our classic product management. Based on parts, which are no longer available, and based on valued customers feedback we develop and add to the classic range on a constant basis. This leads to introducing a vast number of new parts for classic cars every year. Many of those new parts are hard-to-find spare parts or even NOS (New Old Stock) parts, which JP Group offers on an exclusive basis - all of which leads to keeping both Oldtimer & Youngtimer cars in operation.

SERVICE

Quick and professional export delivery worldwide. Our packaging expertise combined with our experienced and skilled personnel, guarantees quick and reliable service. You will not only receive your order quickly, but each product will arrive safely, in a high quality package, which is suitable for parcel delivery towards the end consumer.

HIGHEST QUALITY SPARE PARTS

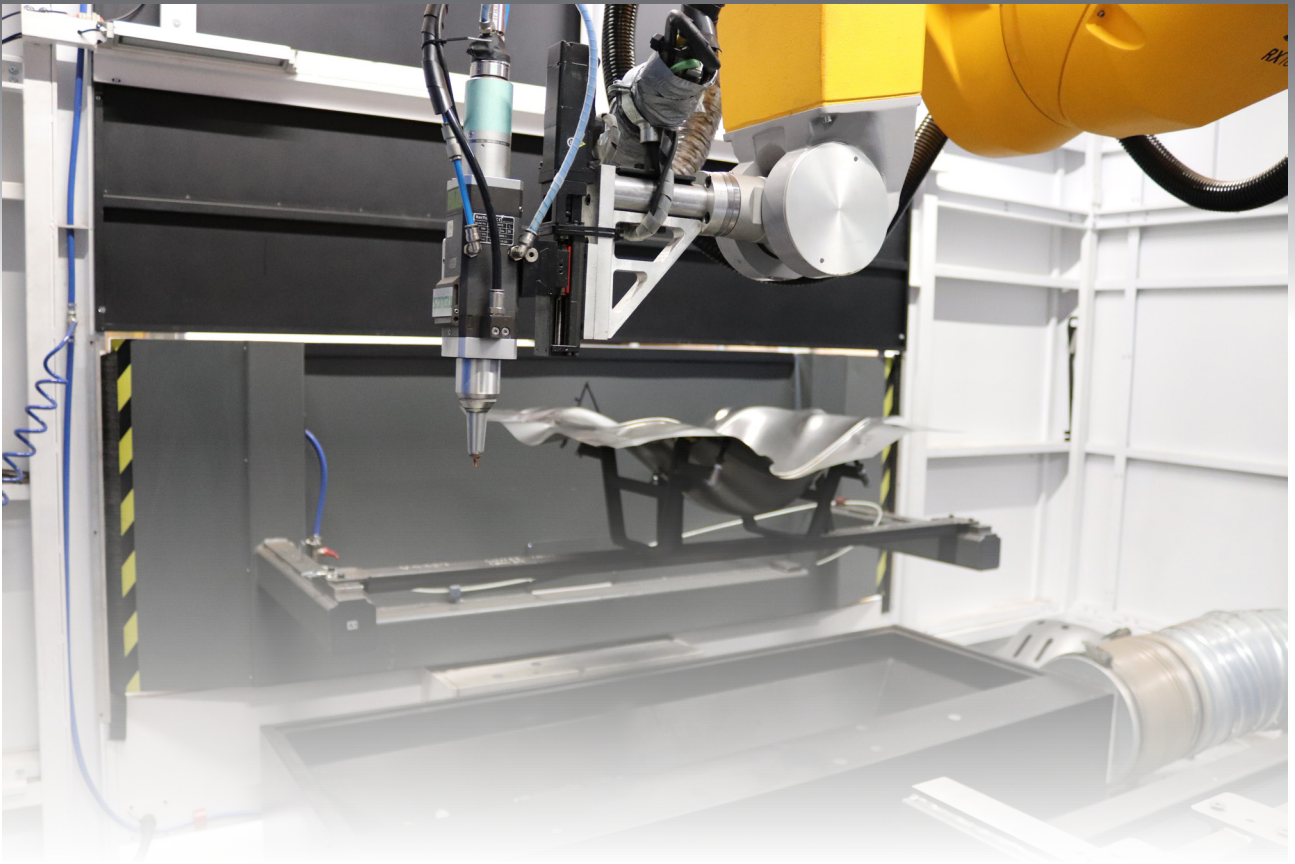

AT A FRACTION OF THE COST!

Our highly skilled technical quality departments ensure a constant focus on a first class quality level. Global sourcing from OE production partners supplying worldwide to the passenger car industry! Extensive engineering and R&D department developing and testing performance and sports exhaust systems, metal body parts etc. We produce our own products in several countries for both the OES and aftermarket spare parts for passenger cars and light commercial vehicles.

FOCUS ON QUALITY!

To meet the expectations of our customers and to ensure a high quality of all our products, we have established quality departments in Denmark and other key manufacturing countries. We also conduct sample tests and provide long-term durability testing - in a laboratory as well as with installation in cars. Last but not least our quality system is certified with ISO 9001.

PRODUCTION FACILITIES

Our production in Denmark is 15,000 m² equipped with the most modern hightech 3D laser cutting robots as well as fully automatic welding robots. We produce in aluminized and stainless materials. Most of our exhaust boxes and body parts are produced with semi-automatic hydraulic presses. Alongside hand craftsmanship this insures the original design and high quality level.

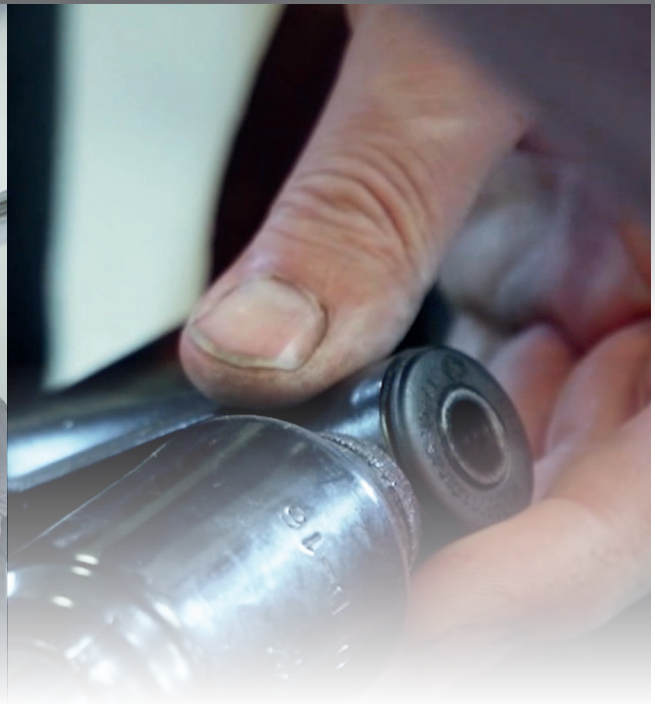

WAREHOUSE/LOGISTICS

25,000 m² modern warehouse with the newest technology in picking/handling spare parts. More than 1,2 million picks are executed per year.

TEST FACILITIES

We have our own in-house development and testing center for both durability and performance testing. A roller-dyno allows not only performance testing, but also ensures the right back pressure is kept and thereby secures maximum engine life time.

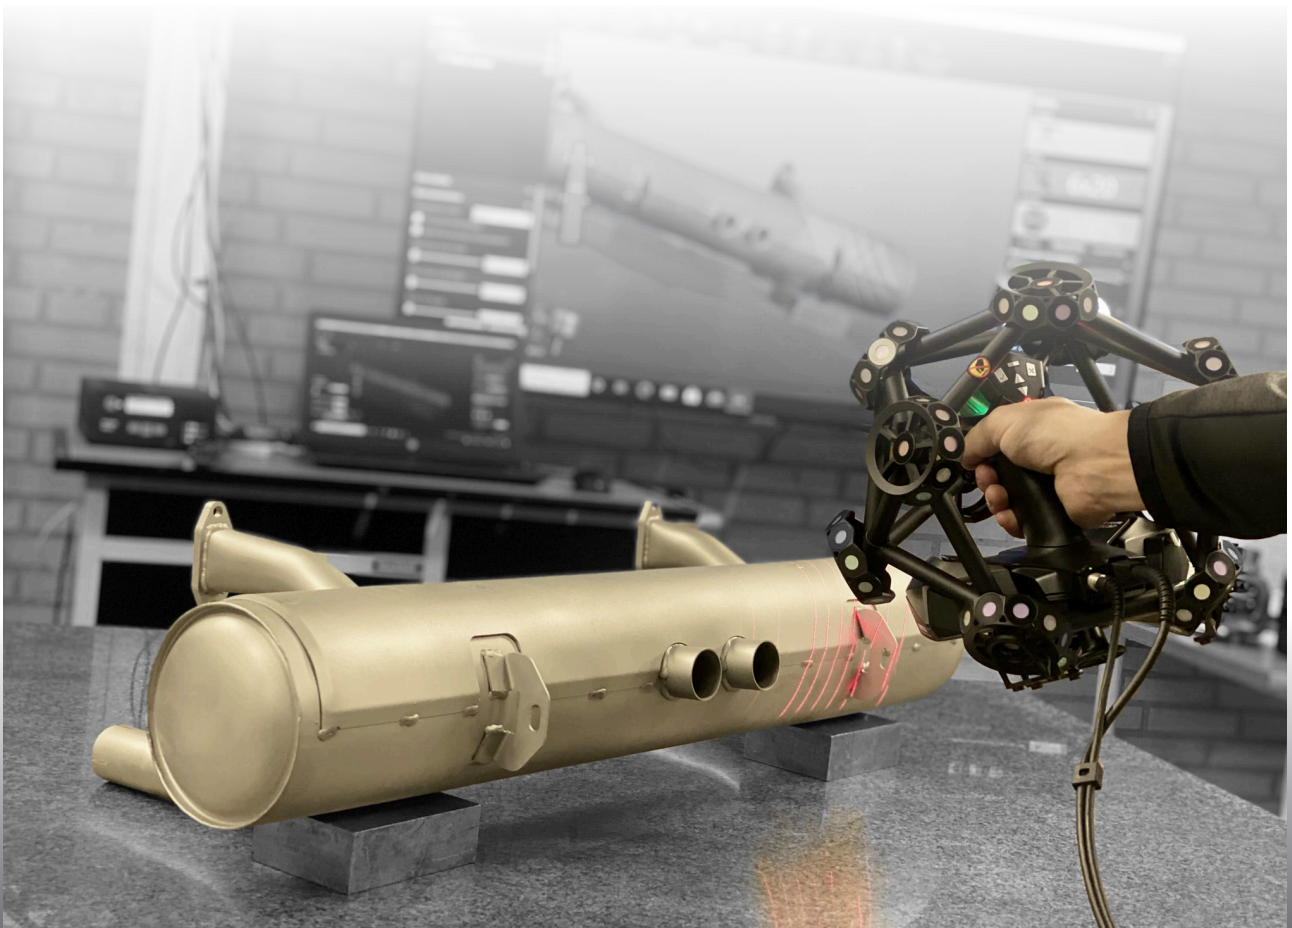

3D CENTER

We are utilising the latest technology in our development and production by means high-tech complex 3D scanning and printing equipment, which can be considered as the platform and as the basic foundation for producing tools in a faster and more economical way than the traditional way of doing a tooling-up process.

In addition the 3D method is used to validate ongoing production to ensure all specifications and tolerances are kept and respected.

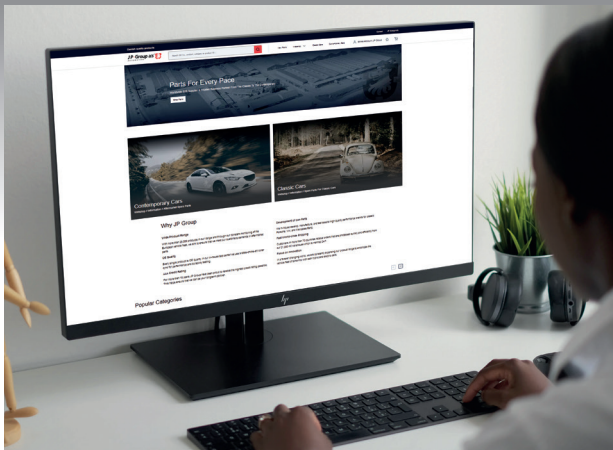

SHOWROOM

Photos from our 1.200 m² state of the art showroom in our headquarter in Viborg, Denmark. We exhibit different classic cars. The cars are being used for development and testing purposes in our development and testing center.

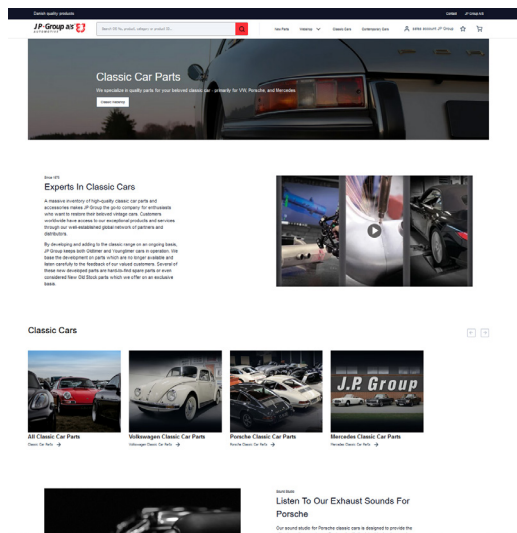

WEBSHOP/WEBSITE

Our new webshop contains more than 3.000 Classic spare parts for Porsche! As a B2B customer you get easy access to the parts, prices, uploads and more advantages:

4 STRONG BRANDS

Original style exhausts, heat exchangers, body parts, oil & fuel tanks and various metal stamping parts

a) Exclusive original quality exhaust systems with EEC/TÜV approvals and at aftermarket prices!

b) Our widest range of body parts in original quality for the 356, 914, 912 and all the 911's models. We have invested and still do, like no one else in this industry, producing both "weld-on" repair panels as well as "direct OE fit" body parts such as fenders, hoods, quarter panels and oil + fuel tanks.

Performance sports exhausts

Our high quality range of sports exhausts produced at your choice of painted deep draw steel or polished/glass bead stainless steel. Sports exhausts mean great sound and high performance, and a great look when adding one of our tail pipes. "SOUND" systems are produced with "valve exhausts", enabling you to drive with both original alike sound, and by using a switch, with a throaty sport sound. SEXP systems are extra loud and without TÜV approval for street use. Stainless steel components are generally made in AISI 304 which is the highest grade available.

State of the art heat exchangers and exhausts

State of the art heat exchanger and exhaust design and finish all made entirely of titanium stabilized AISI 321/EN4531 stainless steel, meaning long life even in the severest conditions (road salt). A range of oversize Ø41 mm performance heat exchangers are recently also available.

General spare parts

A strong family of spare parts within cooling, engine, exterior, interior, suspension, brake, and electrical components.

German/Danish engineering

We are original equipment spare part supplier to Porsche®. Dansk is an OE brand name and we produce: Original standard. All produced according to the highest standards! For Porsche® 356, 912, 914, 924, 944, 911 (964, 993, 996, 997), Cayenne, Boxster, 986 & 987, Cayman and Panamera models.

OEM NUMBERS

We do a detailed research in order to find original and other well-known brand part numbers to add to our administrative system as valid cross reference no., so whenever available we specify the original manufacturer no. However, please note that OEM no. are only for your convenience and are for reference only and not to be understood as an OEM part! The entire classic catalogue is also fully and even more updated on our website www.jpgroupclassic.com. Please choose your vehicle VW, Porsche or Mercedes and then enter no. according to the below structure.

PART NUMBER SYSTEM

The JP Group part no. consists of 10 digits, e.g. 1680300170.

Digits 1 and 2 (16) indicate the main car make, in this case Porsche.

Digits 3, 4 and 5 (803) indicate the product group, in this case wing, front.

Digits 6, 7 and 8 (001) indicate the given part number. Numbers from 1 to 500 refers directly to the product group. Numbers from 501-999 cover items related to the product group.

Digit 9 indicates whether it is standard, set, left or right, in this case the right side:

0 = Standard

1 = Set

5 = Left set

6 = Right set

7 = Left

8 = Right

Digit 10 indicates the product brand:

0 = Classic brands

1 = Classic brands

2 = Premium brand

3 = Alternative brand

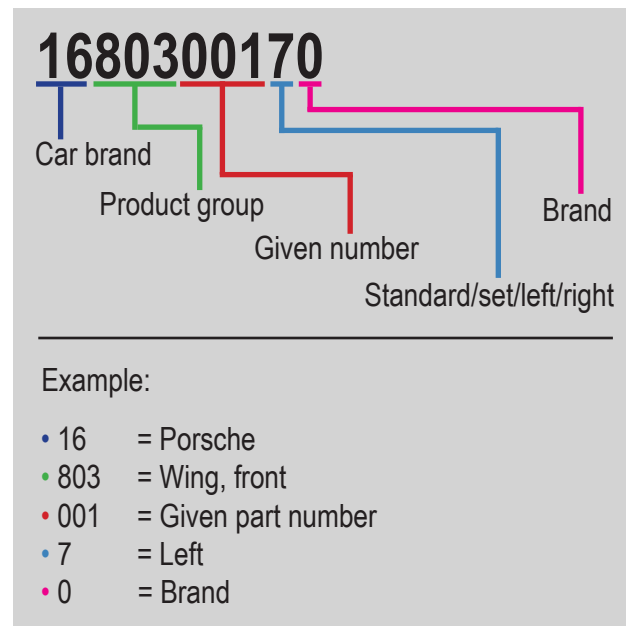

4 = Alternative brand

5 = Alternative brand

6 = No name brand

7 = Premium brand

8 = EMPI (Empi, PMO, JayCee or Bugpack)
