**EXCLUSIVE HIGH QUALITY
SPARE PARTS AND ACCESSORIES**

JP GROUP COMPANY

For about 50 years JP Group a/s and our manufacturing company Johs. Pedersen a/s have been recognised worldwide by enthusiasts with the high quality brands:

within spare parts for VW, Porsche and Mercedes aftermarket.

Furthermore, during 2020 we made a strategic distribution alliance with  regarding European master distribution of the famous EMPI range of accessories and performance parts. This now also includes the entire  carburetor range. Our consolidated range thereby consists of more than 11.000 part numbers for above mentioned classic cars and is constantly expanding.

A STRONG FAMILY AND AN EXTENSIVE PRODUCT RANGE

With our extensive in-house production, we are also proud of being OE manufacturer, and our product range covers high quality components for a very wide spectrum of product groups. Main focus in our production is OE quality metal stamping parts such as exhaust, heat exchangers, body parts, fuel and oil tanks and a wide range of technical CNC machined classic spare parts.

In our factory situated in Viborg in the very centre of Jutland, Denmark, we focus on importing a range of product groups from worldwide classic parts production partners, whom we have granted approval of manufacturing our parts. Many are existing or former OE industries, who provide us with parts for various product groups like engines, brakes, interior and exterior parts, steering and suspension as well as an electrical parts range.

CONSTANT NEW DEVELOPMENTS

Our R&D (Research & Development) work closely together with our classic product management. Based on parts, which are no longer available, and based on valued customers feedback we develop and add to the classic range on a constant basis. This leads to introducing a vast number of new parts for classic cars every year. Many of those new parts are hard-to-find spare parts or even NOS (New Old Stock) parts, which JP Group offers on an exclusive basis - all of which leads to keeping both Oldtimer & Youngtimer cars in operation.

a) Exclusive original quality exhaust systems with EEC/TÜV approvals and at aftermarket prices!

b) Our widest range of body parts in original quality for the 356, 914, 912 and all the 911's models. Performance sports exhausts

Our high quality range of sports exhausts produced at your choice of painted deep draw steel or polished/glass bead stainless steel. Sports exhausts mean great sound and high performance, and a great look when adding one of our tail pipes. "SOUND" systems are produced with "valve exhausts", enabling you to drive with both original alike sound, and by using a switch, with a throaty sport sound. SEXP systems are extra loud and without TÜV approval for street use. Stainless steel components are generally made in AISI 304 which is the highest grade available.

State of the art heat exchangers and exhausts

State of the art heat exchanger and exhaust design and finish all made entirely of titanium stabilized AISI 321/EN4531 stainless steel, meaning long life even in the severest conditions (road salt). A range of oversize Ø41 mm performance heat exchangers are recently also available.
